

May 18-22 | 2026

Chromatin Epigenetics & Transcription

ABSTRACT DEADLINE
MARCH 13, 2026

中国苏州
SUZHOU, CHINA

ORGANIZERS

Deborah Bourc'h
Institut Curie

Guohong Li
Wuhan University

Bing Ren
Columbia University /
New York Genome Center

Noriko Saitoh
The Cancer Institute of JFCR

KEYNOTE SPEAKERS

Nada Jabado McGill University

Yi Zhang Harvard Medical School / HHMI

INVITED SPEAKERS

Karen Adelman Harvard Medical School

Marisa Bartolomei University of Pennsylvania

Deborah Bourc'h Institut Curie

Christa Buecker Max Perutz Labs

Yali Dou University of Southern California

Jamie Hackett EMBL

Yuka Iwasaki RIKEN

Jian Jin Mount Sinai Center for Therapeutics Discovery

Hitoshi Kurumizaka The University of Tokyo

Guohong Li Wuhan University

Ryan Lister The University of Western Australia

Raphael Margueron Institut Curie

Ana Pombo Max Delbrück Centre for Molecular Medicine

Bing Ren Columbia University/New York Genome Center

Noriko Saitoh The Cancer Institute of JFCR

Yang Shi Oxford University

Maria-Elena Torres-Padilla Helmholtz Zentrum München

Liling Wan University of Pennsylvania

Wei Xie Tsinghua University

Guoliang Xu SIBCB, CAS

Yanhui Xu Fudan University

Hongtao Yu Westlake University

Zhiguo Zhang Columbia University

Bing Zhu Institute of Biophysics, CAS

MAJOR TOPICS

- * Chromatin assembly and chromatin structure
- * DNA and RNA modifications
- * Histone modifications
- * Histone variant and chromatin remodeling
- * Chromatin and cellular function

SCAN TO REGISTER

FELLOWSHIP

We are eager to have as many young people as possible attend since they are likely to benefit most from this meeting. A certain number of presentations by graduate students and postdocs in this conference will be selected as fellowship (USD \$100-\$500) awards.
